

REGIONAL HOSPITAL TARIFFS

The tables are divided into the Major Diagnostic Categories (MDCs), that is, according to their specialties. This is to enable quick search for the information contained in the file - look for the disease information in the table of the specialty that looked after the patient.

The tables consist of the names of the G-DRGs, and their respective codes, and the corresponding tariff on the same row. To find the tariff look for the full G-DRG, and then find the tariff on the same row.
